End-of-Life Notification
November 22, 2013
PCN1028

Dear Valued Customer:

As part of our on-going product lifecycle management process, we have identified the following products that will be transitioned to an "End-of-Life" status. This decision was based on our review of historical unit shipment volume and product revenue performance. Products targeted for end-of-life will be available for a last time buy purchase prior to being made obsolete. The products identified for inclusion into our Last Time Buy Program are the following Call Process Tone Detectors.

- M-982-02P
- M-982-02S
- M-982-02T

IXYS Integrated Circuits recommends our M-980 as a replacement for these devices though this is not pin-for-pin compatible to the M-982 devices.

Orders will be accepted on material that is built and in stock commencing with the date of this notice. Scheduled deliveries will be permitted within 3 months of the last time buy date. M-982 products will not be offered after February 22, 2014. Thereafter, these products will be considered obsolete.

Acceptance of last time buy orders is subject to product availability and at the discretion of IXYS Integrated Circuits Division. Every effort will be made to fulfill these orders. Purchase orders for these products will be considered non-cancelable, non-returnable (NCNR). If you have any questions concerning this End-of-Life notification, please contact your IXYS Integrated Circuits Division representative.

Regards,
Steve Andrezyk
Director of Marketing
